# The Smartop® Difference Defined

Smartop's one-of-a-kind design makes it the new standard in spa covers.

## Zero Water Retention/Odor-Free

Smartop's impermeable interlocking polymer panels shield the interior insulating foam from water vapor and run-off preventing weight gain, odor and mold and also allows for long-term optimal heat retention—all common problems experienced with traditional vinyl covers.

## Durable & Long-Lasting

The rigid super polymer deck surface is UV resistant and withstands the harshest weather conditions with no maintenance or treatment required.

## Integrated Hydraulic Cover Lifter

An integrated hydraulic lifter makes opening the Smartop a breeze. When in the open position, Smartop provides privacy and acts as a wind screen, providing the user the ultimate hot tub experience.

## Strong

Smartop's structural integrity is derived from its exclusive, patented, ribbed panel design combined with aluminum support channels that are inset within the polymer panels. This gives Smartop a load capacity of up to 800 pounds – easily supporting snow, ice, pets and much more.

## Steel Cable Cover Lock System

The easy-to-use Steel Cable Cover Lock System, coupled with a padlock, provides the highest security for your hot tub, preventing unauthorized and unsupervised use.

## Repairable/Replaceable Components

In the unlikely event any part of Smartop has a problem due to accident or failure, most components are replaceable making Smartop repairable and the last cover you'll ever need to buy.

The New Standard in Spa Covers

## 3 Year Manufacturer Backed Performance Assurance Guarantee

Each cover is manufactured with superior materials and craftsmanship and meets or exceeds all ASTM safety standards for UL classification resulting in a product that is warrantied against defects in materials and workmanship. If your Smartop is found to be unserviceable due to defects in materials or workmanship within three years from date of purchase, replacement parts OR a replacement cover will be provided.

## About Leisure Concepts

Leisure Concepts has been providing hundreds of thousands of satisfied homeowners quality products for over 20 years, making the company the #1 spa accessory manufacturer in the world. All manufacturing is completed in the USA in our 100,000 sq. ft. state-of-the-art facility allowing the strictest quality control and on-time delivery. Our goal is to provide quality products that offer many years of trouble-free ownership and 100% customer satisfaction.

U.S. Patent # 8,813,275
